Dear ade-okeya Moyosola (ekitischoolfortheblind),

Qservers.net provides instant webhosting activation, you domain should be visible within the next 10 mins of receiving this mail. If by any reason the domain is not visible online, do not be alarmed, it is still propagating. This process is called Propagation and it takes between 24 - 72 hours after domain registration. Until your domain has Propagated your website and email will not function, we have provided a temporary url which you may use to view your website and upload files in the meantime.

**IMPORTANT:** Make sure you upload your files to the WWW directory on the server otherwise they will not be visible on the internet. Also, please be sure that your homepage is saved as an "index" file e.g., index.htm, index.html, etc. We suggest you download a free ftp software from our site: <http://www.qservers.net/process/downloads.php> if you do not already have an ftp client.
